Russia Reduces to Four the List of Cities Where Passports May Be Vised.

NO EXPLANATION IS GIVEN.

It Is Believed That It Is the Czar's Means of Showing His Displeasure Over the Kishinev Agitation.

Washington, July 29.-Officers of the State Department are at a loss to understand the action of the Russian Government in giving notice that it had determined to reduce to four the list of citles where passports to Russia may be vised. The notice was served on the department yesterday by Theodore Vansen, the Russian Charge, but he vouchsafed no explanation of the reduction, and the cause for it, therefore, is food

Hitherto there have been twelve American cities at which passports for Russia might be vised: New York, Washington, Cheago, San Francisco, Baltimore, Philadelphia, Savannah, Mobile, Pensacola, Galveston, Portland and Manila. Under the new arrangement, only the first four remain on the list thus reducing by 75 per cent the facilities for intending travelers between Russia and the United States

By whatever reason the Russian authorities have been actuated, it is certain that they are not anxious to encourage the visits American citizens to Russia. The assumption here is that the order is a development from the Kichenev incident and that this is a method of expressing displeasure with the manifestations of sympathy by the American people with the victims of the massacre, People entertaining such ideas will not be

Expenditure of Several Million Dollars on Work Under Way Will Result in Enormous Lighting Plants.

The Laclede Gas Light Company is rush ing its extensive improvements, which when completed will give the public better service. The improvements will cost several million dollars.

A new gas holder is being erected a Broadway and Gasconade street, which will have a capacity of 4,100,000 cubic feet. The steel tank is the largest except one in the world, and is exactly the same size as the one recently built at Chouteau and New

stead avenues. This tank will require four and one-half million pounds of the finest quality of steel. The builders are the Riter-Conley Manufacturing Company of Pittsburg.

The tank will supply gas to the entire southern district. A large pumping plant is being erected at the same place and will be used to pump gas to other parts of the city Station "A," Second and Rutger streets now has a water gas capacity of 6,000,000 cubic (eet a day. Pintsch Lighting Works are being creeted These works will be the largest in the United States.

tion. The water-gas capacity also is being reconstructed.

At both stations a new system of blowers are being installed. They were built especially for this company and are the largest in use.

Fourteen miles of 24-inch gas pipe are being laid. These extend from the new gas holder at Broadway and Gasconade street to the northwestern part of the city.

If necessary, gas may be pumped from this holder to all parts of the West End. A set of double governors is being installed to give absolute safety and prevent excessive pressure.

The Laclede Company has a storage carractly of 11,60,600 cubic feet. The electric plant is not being enlarged, though some new machinery is being installed.
